

"BOLZANO DRIVE" - FROM ORANI TO BOLZANO IN A FIAT 127

03.10.2020, 10am - 6pm

The meaning of *being in and living a place*, but also of **travelling through different areas and landscapes** are at the centre of Cristian Chironi's art that is conceived first and foremost as a **physical challenge**.

This is why the [project "Picnic"](#) for the Cubo begins **with the journey** the artist will make **from Orani (Sardinia) to Bolzano** in his Fiat 127 Special (aka "The Chameleon"). This very special car will also be used in his first "**Bolzano Drive**" performance, on **Saturday 3rd October**, in which the artist will give a **series of tours through Bolzano**. In the company of a co-pilot and two members of the public sitting in the back, the artists and his passengers will share their stories and views of the city.

The performance is organised **in collaboration with the "[Bolzanism Museum](#)"**, a sort of museum spread throughout the Don Bosco district that was set up by the Cristallo Theatre, Cooperativa 19 and Campomarzio. At 6pm, at the end of the *Bolzano Drive* tour, the public is invited to come to the finissage of the 2020 season of the **Bolzanism Museum**, in the square in front of the **Cristallo Theatre**.

To take part in the Fiat 127 tour with the artist, write to visitorservices@museion.it or phone 0471 22 34 13
