

“OBJEKT MENSCH”

For a whole year, visitors and volunteers at the „Rendezvous“ for mentally ill people in Schlanders, Vinschgau Valley, have been working on their sculpture “Object Man/Objekt Mensch”.

The result can now be admired: a colourful man-like figure made from wire, paper, glue, wood, wool and acrylic. The theme behind this collective piece is “the search for equilibrium”, or rather “the balance between impulse and perception, head and heart, public and intimate.; between dishevelment and unravelling.”

“Objekt Mensch” can be seen at Museion, in the foyer, from the 12th until the 26th October. Entrance to the foyer is free.
