

## OPENING: INSTALLATION ART

---

**Friday, 06th October 2017**  
**19.00 h**

***Walk-in and expansive works from the Museion Collection***

Works of art that envelop the senses or can actually be entered: the ongoing exploration of the Museion collection and the languages of sculpture continues with pieces of an immersive nature that invite visitors to engage with them physically. The show features large-scale installations and light works that give rise to a spatial dimension.
