

MEDIA FAÇADE IN COLLABORATION WITH BOLZANO DANZA

MEDIA FAÇADE IN JULY

Fabrizio Favale / ZimmerFrei / First Rose
Argon

A volcanic island in the Aegean, a sand bar in the North Sea and the land under Europe's largest particle physics laboratory - powerful landscapes where you can feel that something is about to happen, that there is something smouldering under the surface, like the slopes of a Greek volcano, or just before a kiss. These are the atmospheres of the three videos by the *ZimmerFrei* collective which offset the dance performance by the dancer and choreographer Fabrizio Favale, in "Argon". The new Bolzano Danza/Museion production debuts on Thursday 12th July, kicking off the 34th edition of the Festival. The opening night includes an artist talk with the artists, Frida Carazzato (Museion) and Michele Di Stefano, guest curator of Bolzano Danza's Outdoor events. From 10 to 11.30 pm this will be followed by the screening and dance performance. Argon is structured in three chapters, and the subsequent dates are 19th and 26th July, from 10 to 11.30 pm.
