

EXHIBITION PROGRAMME 2020

Museion presents its 2020 programme, which includes an exhibition of the famous explorer Erling Kagge's collection that is one of the highlights of 2020. It also investigates the creation of the South Tyrol with an exhibition of works from the collection of the Autonomous Province of Bolzano, "unlearning categories".

The 2020 programme also features solo shows by Mercedes Azpilicueta, Karin Sander and Sonia Leimer to highlight three women's stances that are in line with the research conducted by Museion in recent years. The programme for the Media Façade is linked to the exhibitions, whereas the Cubo Garutti will host various initiatives, including a project involving the residents in the Don Bosco district by the artist Cristian Chironi.
