

## DAY RAVE - OPENING TECHNO

---

**DAY RAVE I | 10.09 • SOLD OUT!**

**DAY RAVE II | 11.09 • Tickets: [bookshop@museion.it](mailto:bookshop@museion.it) | 0471 223413**

The collaboration between Museion and TRANSART is set to continue once again this year. From the 10th until the 24th September, at the former electric power station, Alperia St. Anton/S. Antonio in Bolzano, a series of events will take place that form an integral part of the exhibition, TECHNO.

**DAY RAVE** is part of the TECHNO show. DAY RAVE is an experimental dance project created by Isabel Lewis: the artist and choreographer present dance as an experience of movement based on components including architecture, light, rhythm, noise and sound, including techno music.

Isabel Lewis and Margherita D'Adamo will lead the participants through a guided narration and a variety of choreographies.

Following DAY RAVE I (10.09, 5 pm), the opening of the TECHNO exhibition will continue at Museion (from 7.30 pm).
