

## TECHNO PLAYLISTS • PLAYLIST #2 • DAVIDE PIRAS

---

For the **TECHNO** exhibition, some representatives of the global techno scene, including DJs, producers, record labels and organisers will produce **playlists** that will represent the richness of different styles and voices expressed by club music over the decades.

### TECHNO Playlist #2 • Davide Piras

Shadow and light together are a common sight. South Tyrolean producer, Dj and live-act **Davide Piras** nourishes his mind from both, thus trying to improve and investigate any possibilities of **post-techno** and **experimental electronic music**. He turns into **DJ Chupacabra** when it comes to more playful and housey stuff and puts on **6470's** garment for rough, yet solid and distorted soundscapes.

Previous music released on labels like **Subwax**, **HAWS**, **Carpet & Snares** and **DR. Banana**, Davide keeps it underground with more releases in 2021 on outlets like **Shall Not Fade**, **Suburban Avenue**, and many more. He played in clubs and festivals in Germany, Portugal, Austria, Spain and Italy.

**"For this playlist I chose tracks that have inspired me over the years both as a DJ and as a producer, pushing me to get better and better at studio work".**

TECHNO Playlist #2 is now on [Spotify](#).
