

MUSEION FACTORY: PARTICIPATORY RESIDENCY WITH TEATRO DE LOS SENTIDOS

MUSEION FACTORY Participatory Residency with Teatro de los Sentidos

Participatory residency | 4 – 8 November 2022

A five-day participatory artist residency and two events open to the public with Teatro de los Sentidos. The workshop will use play, the human body and its ability to feel as the main tool to create an exhibition space that will invite participants to live it and experience the artwork.

After the participatory residency with artist Otis Mensah, *Museion Art Club*, the cultural incubator for the development of contemporary culture in South Tyrol, presents MUSEION FACTORY *SENSORIAL PERFORMING ART*, a five-day participatory artist residency with two events open to the public, featuring Gabriel Hernandez Ladino from Teatro de Los Sentidos. Museion is hosting MUSEION FACTORY *SENSORIAL PERFORMING ART* to invite a wide-ranging public to take part in a participatory experience involving various forms of bodily and linguistic expression.

Teatro de Los Sentidos promotes the development of methods that seek to animate a space and recreate it poetically, so the experience touches both the public – *imaginantes* – and the actor – *inhabitant*, as the company defines them.

From 4 to 8 November 2022 the workshop will create sensorial exercises to awaken in the participants' creative capacities for poetic situations that originate from the memories hidden within their own bodies.

This is a workshop for having fun, discovering yourself through the eyes of others, learning the language of the senses and of theatre, and realizing that reality, even if it may not always be what it seems, can also be what you want it to be. It is a way of using smell, taste, and hearing to stimulate our dormant senses and discover things hidden in our bodies that we did not know we could do.

Within the framework of the participatory residency are two events that are open to the public: Saturday 5th November at 7 p.m.: *ART & FOOD*, a convivial event in collaboration with Alma 9 and Federica Randazzo hosted by the Teatro de Los Sentidos, in which the participants will find themselves in a situation suspended in time. Dormant senses will be stimulated through sounds, scents, and colors to develop their

expressive potential. As our bodies remember and these memories can be used to charge our present, construct our stories and make them even more our own.

Tuesday 8th November from 6 to 8 p.m., Teatro de Los Sentidos and participants of the residency will stage the *performance UNBOXING THE ART*. This intimate performance, involving all the participants in the residency, will see a maximum of 2-3 spectators at a time take part in the “sensorial mini-world” developed during the 5-day experience with the Teatro de Los Sentidos.
